

Monday, 17 September 2018

Dear Parents,

Your daughter will now be beginning to consider her future options, be it Higher Education, higher level and degree apprenticeships or within the workplace. We are pleased to be offering the opportunity for the girls to participate in an online version of the trusted and respected Morrisby psychometric profiling service. The assessment takes the form of in-depth questionnaires which examine verbal, numerical and abstract reasoning, alongside an aspirations questionnaire looking at career interests, preferences and motivations. The assessment takes approximately 75 minutes to complete, and can be taken wherever there is access to the internet, but does require a quiet environment to allow for focus and concentration.

The cost of this online version is just £30 if ordered through school (£84 for an individual order outside of school), which includes a personalised, detailed profile report showing aptitudes, specific strengths and talents, preferred working environments, and potential career interests. Mrs Tunstall, our external careers adviser is fully trained in the Morrisby profiling process, and will meet with pupils after completion to discuss their profile reports in detail and support them to interpret the data accurately and proficiently. This expert feedback for the reports normally incurs an extra cost from Morrisby, but we have ensured that this crucial element of the process has been included within the school's careers service for the year, allowing us to offer the lower price.

If you would like your daughter to undertake the Morrisby assessment, please return the slip below with a cheque for £30 by **Monday, 24 September**. If you require more information about the service, please contact me in school, or view more details at: [www.morrisby.com/parents](http://www.morrisby.com/parents).

Yours sincerely,

Mrs M Sharrock  
Careers Coordinator
