

## Rules of the car park

The car park speed limit is **5mph** from the top of the drive and throughout the school;

Drivers should not exit their vehicles in the designated drop off zone, other than to lift out bags for the students and should exit this area as soon as possible, indicating when doing so;

The double yellow lines restrictions are as they would be on any road, i.e. No stopping or parking in this area;

The zebra crossings are there to enable you and your children to navigate the car park safely therefore please do not stop on or around them;

The red path across the centre of the car park is pedestrian use only therefore please do not drive across it (or the bollards!) from one side to the other;

Please be careful when pulling in / reversing into the bays either side of the red path as it is used by many of the children.

Thank you for your cooperation.
