

## Introducing the Gateways Ultimate Frisbee league

One of the great things about working with our girls in this sport is the way they are all so supporting of one another across the year groups. They are full of encouragement and enjoy training together. In particular, the younger girls are really starting to look up to the senior ones, who are themselves excellent role models and coaches.

In order to build on this, I am pleased to announce that we are forming three teams\* to compete throughout the year within the school, so that our girls can enjoy the competitive side of sport and have something that will push them to give 100% on the pitch.

The teams are being led by three U5 girls, who have played for the GB U17s team and are some of the most energetic and driven players we've produced. I'm sure they will also be so welcoming towards their younger teammates. Join me in wishing Elle, Chloe and Coro good luck!

Most regular attendees have already been assigned to a team, but all three captains are eager to build their player base and any girl wishing to join in just needs to let me or one of them know. May the best girls win!

Mr Joshua Crosby

\*NB these are designed to be as closely matched as possible and are not a replacement for any house competitions to follow.
