

Upper 3 - Coraline board games

To start off the Summer term, Upper 3 are getting creative as they complete their study of the novel 'Coraline.'

Pupils have been challenged to work in groups to create a fun and immersive board game, filled with lots of details from the book. The groups will present their games on Friday and we will even have a go at playing them. Prizes will be given to the best board game that successfully helps convey all the best parts of what they have read.

The class has really thrown themselves into the activity with excellent teamwork, strategy and logic skills being utilised. We cannot wait to play!
