Upper 4 learn about the Basque region of Spain

Upper 4 Spanish have been learning about the Basque language and region. The Basque country is a historic region of northern Spain with lots of fascinating features.

They were really interested to find out about the special, unique features of the Basque region such as typical traditional food, some key phrases in the Basque language, typical musical instruments, the importance of the arts, the role of religion, and common values and customs.

We also took a virtual tour of the city of Bilbao in the Basque region to get a feel of what the largest city in the Basque region is like. They enjoyed seeing the contrast of the modern parts of Bilbao with the more traditional areas.

Well done Upper 4!
