

High School & Sixth Form

Upper 6 art

Our Upper 6 students have been busy in the art department this term finalising their personal projects that they have been working on for the last year. They are all using a variety of materials including digital collage, painting, drawing, sewing and batik.

Their projects range from exploring sacred geometry in architecture, looking at the contrast between opulence and poverty and portraying identity through objects.

I look forward to sharing more photos after the end of year art exhibition.
