

Lower 3 learn how to make the future tense in Spanish

This week Lower 3 have been talking about different free time activities in Spanish using the verb “jugar”. They had done so well combining opinions and sports that I decided to challenge them to adapt their sentences to include the future tense too. They were then able to say in Spanish which sports they are going to play next weekend.

They did absolutely brilliantly and made some really fantastic sentences when practising using the “snakes and ladders” game.

Well done Lower 3 for extending your learning in this way!

Mrs Louise Brown
