

Australia!

This half term, Transition have been learning all about Australia!

We have enjoyed finding out about where the country is, what food is popular, the climate and the sights that you can see when you visit.

We have learnt all about the Aboriginal people and have created our own Aboriginal art.

The children have been fascinated to learn that Christmas is during summer and that Australian people often celebrate with a day at the beach!

Being a year-group of animal-enthusiasts, the children have loved learning about the interesting and unique creatures that live in country. I wonder if they can tell you what is particularly interesting about a wombat's poo?

Mrs Heather Hallam and Miss Beth Hayter
