

The month of Ramadan

There have been many children in the school observing Ramadan over the last 30 days. Some of our Upper 4 pupils explain this important time in more detail...

The month of Ramadan is the month of appreciation of many nations and sacrificing food and water. This month gives us awareness about how we should be thanking Allah (God) for the blessings of the simple things. It is a time to reflect and recognise that others may not have the same opportunities or access to the basics. We look at things we may take for granted as well as showing our commitment to him and only him. All this leads up to the reward of Eid at the end of the month. Eid is a time for celebration where we spend time with all our family members, give and receive gifts and eat lots of cultural food.

Safiyyah, Xaviera and Aminah (Upper 4)
