

Languages Day for Lower 4

Hello our names are Ruqaiya and Lara and we want to tell you all about our Languages Day on Tuesday. We were split up into 3 groups and did a German lesson, a French lesson, a treasure hunt and watched films in French and German. We were always kept on our feet and enjoyed participating in all of the activities, especially the treasure hunt when we had to find the clues about which teachers spoke different languages or where they have lived. We loved the fun starters in French and German and many people have said how much they had learnt in the hour.

We also watched a French movie called *Les Choristes* which had a moving story line and allowed us to pick up some French words. As well as this we watched a few German short videos which showed us how German was spoken day to day which was a new experience for most of us. It inspired us to carry on learning a lot of different languages and to have adventures abroad (when we are allowed!).

Initially, we were all convinced that Spanish was our main foreign language and a lot of us were too scared to venture into other languages. After this event, though, I think most people's opinions are starting to change as this was a terrific introduction to the start of a new chapter for us in languages. Even the people who don't do Spanish loved it. Thank Mrs Wilson, Mrs Boyle and Mrs Brown for putting effort into this, as the day was a real eye opener for all of us.
