

Upper 5 charity week

Earlier this term Upper 5 kicked off our new charity initiative where each year group will have the opportunity to organise a charity event and decide which charity they would like to support.

Given that our first charity event was so close to harvest, Upper 5 collected donations for a local food bank. During last term we had ended the year with a charity walk to raise money for the charity called Simon on the Streets, so it seemed quite appropriate to support those less fortunate by collecting food donations during the time of harvest. Their week began with a very well delivered assembly to raise the importance of taking time to consider those less fortunate. Despite the horrible weather when Upper 5 were collecting their donations in the car park they still managed to collect a sizeable donation of food.

Well done Upper 5 and thank you to all of the Gateways community who supported this event.

Dr Sara Newton
