

Enterprising activities at Gateways

Each November the [Global Entrepreneurship Network](#) runs enterprise programmes to celebrate and empower entrepreneurs in every country and community around the world. To reflect this global event, pupils at Gateways have been looking at enterprise in form time activities throughout the week.

The activities included:

- watching a video which Upper 5 GCSE Business Studies pupil Sadie Gray made with her Dad at his business “Boost Drinks”. You can [click here](#) or on the image above to watch the video.
- looking at [BBC Million dollar ideas](#) – the back stories to everyday million selling products.
- an enterprise quiz
- watching and discussing clips from BBC [CEO secrets](#) where CEOs talk about what makes them successful.
