

Sending emails to our German pen pals

GYMNASIUM
GEORGIANUM
VREDEN

Upper 4, Lower 5 and Upper 5 pupils, who are studying German, have all been given the opportunity to have a German digital pen pal. The German students attend either Geschwister-Scholl Gymnasium in Stadtlohn or Gymnasium Georgianum in nearby Vreden. Stadtlohn and Vreden are small towns in North-Rhine Westphalia on the German-Dutch border.

This week pupils have sent their first email in German to introduce themselves to their new pen pal. They have referred to their class work to write about their family members and what they like to do in their free time.

We are very excited about having digital pen pals and we hope that it will be a very motivating and enriching experience. The aim is that pupils can not only practise their German, but also learn about cultural similarities and differences. We are looking forward to receiving emails back soon!
