

Upper 3 geographers go orienteering

This week, Upper 3 took to the school grounds in order to complete an orienteering course. Armed only with maps and clipboards, they had to find the ten marked locations to collect letters that would then create an anagram related to our topic.

This was an excellent example of pupils working together in small groups and they were full of energy and laughter as they ran from site to site.

Congratulations to Adrian, Shapur and Daisy who took first prize for U3G and Lucas, Alice and Otto who were the winners in U3W.

Mrs Elizabeth Hayward
