

High School girls games

Unfortunately, we have had 4 matches cancelled this week but hopefully they will be rearranged. This however has not stopped the girls from being competitive and they have enjoyed playing conditioned rounders games in their lessons in preparation for more matches next week. The 'one out all out' rule was a favourite in all year groups as this made the fielding team work closely together to get one player out, so they got to go in and bat again.

Athletics has also been competitive with the pupils trying to achieve ESAA standards. These are set by the English School Athletics Association and pupils can achieve awards if they record results in bronze, silver, or gold standards. The results are recorded and used to give points for sports day.
