

Time has flown by for Upper 5 Spanish pupils!

This week is Upper 5's last week in High School before their GCSE exams start and it has been very emotional to say the least. During their final Spanish lessons, they have all been awarded personal certificates recognising how hard they have worked, their individual strengths in Spanish and the fun, enthusiasm and positive energy they have brought to lessons.

For their final lesson, they are going to dig up a time capsule that the girls made and buried when they were in Upper 3. I am very much looking forward to seeing how much they have all changed and the progress they have made over the last five years!
