U12 Basketball

Gateways 21 – 35 Allerton High

Thursday 23rd February 2023

U12 Basketball

Gateways 13 – 18 King's Pontefract

The U12 kickstarted their Spring 2 sports campaign with a double header of basketball, firstly entertaining Allerton High School on Monday before travelling to King's Pontefract on Thursday.

Despite defeat in both matches, the Gateways boys, a little light on preparation, did themselves proud and the run-outs will do them no harm whatsoever in the long term.

Allerton on Monday were strong; coached by City of Leeds Basketball, the majority of the starting group play for the club which gave them a significant advantage. Despite this, the Gateways boys grew into the game and to score over 20 points was a real positive.

Thursday's game saw progress in the first couple of sessions however, the game got quite scrappy from then on and despite a late rally, King's were able to hang on.

U13 Netball v Fulneck

Gateways 4- Fulneck 14

The U13 netballers played a league match against Fulneck on Thursday. Although they have been playing football in games lessons, the netball league continues. A selection of girls in U3 & L4 played as the team, with moments of good passing, moving into space and interceptions. The girls did not give up when they had the ball intercepted from them and tried their best to find the shooters in the circle, it was just unfortunate that we missed scoring opportunities and did not throw the ball high enough so found some of our passes were intercepted. The girls know that attending practice is important for making progress and so hopefully their passing will get stronger and higher, shots will go in more often and we will find free spaces more easily. I look forward to seeing the progress these girls can make with practice.
