

Art residential

18 GCSE art pupils got the opportunity to visit the Conway Centre in Anglesey, Wales last weekend for an art residential. There were a variety of workshops on offer including 3D, textiles and art, each with the theme 'royalty' and pupils got to pick one of interest to take part in for an intensive 12-hour project.

Pupils were working until 9:30pm on their work and thoroughly enjoyed learning new techniques. Each workshop consisted of creating a prep sheet with research and a final piece. It was very fast paced but everyone was so pleased with what they managed to achieve in one weekend.

This will count towards their GCSE grade as an additional project and they will be able to use these new methods in future works that they create for their coursework.
