

Diversity month

Diversity month has been one of the cornerstones of our learning this week. Having the opportunity to celebrate our school community in a meaningful way has meant the children have appreciated each other's differences, seeing themselves as different but equal.

We have shared the book 'Big Feelings' and watched real-life videos of children from around the world talking about their own experiences. The children have discussed what makes them special and unique.

In Reception we looked at different religions, countries and languages from around the world that are represented within our school. We learnt about other cultures and created a world surrounded with handprints. On the handprints the children wrote their names and key parts of their cultural identities.
