

Summer sports

Both boys and girls have started the term playing summer sports. Cricket for the boys in all age groups, Cricket for the girls in U12 & U13 and Rounders for the girls in U14 & U15. Cricket is new to the girls in High School and they are learning the new bowling technique, fielding with a modified cricket ball and using a cricket bat. The boys are reminding themselves of the skills and repeated practice will see progress in their hand eye coordination. As they all progress, they will put these skills into competitive games.

The U14 & U15 girls will continue to play rounders and on Monday we saw evidence of great skills. Many girls hit the ball successfully and although initially shocked, they continued to be successful when striking the ball. It was also pleasing to see that the pace of the bowling improved within the session. If these girls continue to make progress the fixtures that are planned for this age group after half term will be competitive.
