

## Lower 3 research places of worship

This half term in religious studies, our Lower 3 pupils have been set the challenge of finding out about different places of worship linked to the world's six main religions. This week, each group was assigned a different religion and then using a variety of sources, they set about researching the place of worship used by that particular faith.

Once they have found out as much as they can, the children will work in their groups to create presentations to deliver to their peers at the end of the topic. So far, the pupils have shown excellent independence and initiative. Keep up the great work!
