

## Upper 3 geographers complete orienteering challenge

This week, some of our Upper 3 pupils took advantage of the beautiful school grounds to participate in an orienteering challenge. Working in groups, they had to use a series of maps to locate information cards providing them with letters that they then had to unscramble to provide a keyword related to our topic.

From the outset, the teams were fiercely competitive, and it was incredibly close as to who would solve the puzzle first. Congratulations to Summer and Emilia though who were eventually crowned our winners with Leo, George and Alex nail bitingly close in second place.

All pupils did exceptionally well though and it was lovely to be able to learn geography in the outdoors, just as it should be!
