

## Lower 5 revise by playing 'Taboo'!

Lower 5 have had a busy week, either taking examinations in the Sports Hall, or revising for tests that are coming up. The Lower 5 historians have been busy revising by playing 'Taboo': they have a key event or person to describe to their teammates, but they cannot use any words closely related to the topic. The two history groups enjoyed playing the game, turning it into a competition to see who could collect most cards. They also found it a really good way of learning the people and events that they needed to learn more about.
