

## PSHE - British values

This term's theme for PSHE is 'the wider world'. Pupils are invited to think about their place in society and how they can make a positive difference. This module is all about preparing pupils for life outside of school, so they can navigate wider society living harmoniously with others.

With year 7, we're currently learning about British values:

- 1 - Democracy
- 2 - Individual liberty
- 3 - Mutual tolerance
- 4 - Respect and the rule of law

Everyone, regardless of their background can live by these values. This lesson helps students understand each value and how they shape the way we live our lives in the UK.

When students have a firm grasp on each value, they are invited to think about what values they hold personally ie. what is important to them and how can their values influence the world for good.
