

Sports leaders take a leading role in PE

In the current Lower 6, there are 6 students who are currently enrolled to the Sports Leaders UK qualification. As part of their course there are a number of practical requirements, one of which is to plan a series of three progressive sessions in a discipline of their choosing, to be delivered to a group of children.

Working within a school environment gives them ample opportunity to achieve this however, for many students of this age, this can be a daunting prospect. Not for this group it isn't! They have taken to coaching like a duck to water and have shown a maturity in both their preparation and delivery that belies their years.

This group of students have been a pleasure to work with and the Prep School have benefitted from their expertise and have clearly enjoyed the sessions so far!

Mr Simon Scholfield
