

Upper 1 residential to Herd Farm

On Tuesday morning a very excited upper 1 travelled (the short distance) to Herd Farm for our residential. They began by working in teams for the toughest job of the trip... making their beds, before they moved on to improve their team works skills further guiding themselves through some orienteering. The amazing Herd Farm staff guided the children through some amazing activities such as zip line, big swing and night line. All the children were amazing at conquering some fears and testing themselves. We were so impressed with the children's behaviour and how they encouraged and cheered on their peers. The children were treated to a campfire on the evening where they enjoyed some s'mores before treating us to Gateways got talent. Super work Upper 1!
