

A fun-packed week in Transition!

Last week, Transition had some very exciting events!

On Wednesday, Laura and Jade from Puffin Pottery in Otley came to the school to run a pottery painting workshop with the children.

Each child was given a mug to decorate and they were encouraged to use their imagination and creativity to do so. All the children worked so hard on their mugs and everyone produced some fantastic work! We now have to wait 10 - 12 days for the mugs to be fired and we will see the final products! We can't wait!

Then on Friday, Mrs Traynor from the Gatehouse came to Transition to give a special talk. Mrs Traynor has her own bees at home and was able to teach the children all about them! We got to hear about how Mrs Traynor smokes the bees with her special smoker to make them sleepy - allowing her to check the hive and make sure that the bees are happy and healthy. We got to see the special outfit that she wears to prevent stings and even got to try on the face cover!

It was a fantastic talk that hopefully means the children will be a bit less afraid if a bee comes to visit their flowery clothes! Scroll down to see more photos...
