

Lower 6 sociologists sit the 11 plus

Section 1 — Find the Figure Like the First Two

For each question below there are two figures that are like each other in some way. Find which of the five figures on the right is most like the two figures on the left.

Example:

Answer: c

1

Our Lower 6 sociologists are learning about the impact of different educational policies. We are starting to look at issues surrounding selective schools. To introduce this topic the group tried sitting some 11 plus papers in verbal reasoning, non-verbal reasoning and maths. There is an example above for you to try. We are pleased to say all did well in these tests but we certainly found them challenging and it made us think about what it would be like to sit these as an eleven year old. We will be relieved to return to learning about sociology instead next week!

Ms Helen Bromley
