We're all going on a summer holiday!

As the summer holiday period gets closer, the children are getting very excited about traveling and spending time with their friends and family. We have been discussing the types of transport we can travel on and where they might take us. The children have been learning about what forms of transport move on land, in the sky, on water and under the water. We have been making a passport for ourselves and looking at what we need to take along with us in our suitcase.

In our excitement, we have been dancing outdoors with the musical instruments and moving our bodies in a range of ways to the music, as we pretend to be a form of transport.
