

Sports Report WC 18th September 2023

Mitchell Tennis served up their opening sessions this week and welcomed dozens of enthused Prep pupils. We are big believers in maximising opportunity and time and having 3 coaches certainly gave our children a high paced, high action session. It's going to be exciting to see the skill development.

Remaining with high paced, the focus on improving athleticism amongst the year groups continued this week. The PE staff have been delighted with the determination and focus shown as all year groups have jumped, bounced, lunged and sprinted against friends. This is a long-term project but, as the old saying goes, a thousand mile journey begins with the first hop!

Our teams are preparing for their opening fixtures and the Games lessons have been vibrant. The girls can be inspired tonight by the England v Scotland football match in the UEFA Women's National League, showing on ITV with a 7.45pm kick off time.

The boys can also learn a great deal with more Rugby World Cup games including England v Chile at 4.45pm on Saturday or, the huge encounter of Ireland v South Africa (Dr Johnson will certainly be glued to this), at 8pm that evening.

Mr Phil Holmes
