

Upper 2 pupils showcase creativity and motor skills with paper plate snake project

In a delightful display of creativity and fine motor skills, Upper 2 pupils embarked on an engaging project that combined artistry and dexterity. Under the guidance of Mrs Dixon, the young learners spent form time crafting intricate paper plate snakes, bringing smiles and enthusiasm to their classroom. Projects like this offer more than just artistic expression; they help pupils develop crucial fine motor skills, hand-eye coordination, and spatial awareness.
