This week, pupils in Upper 3 Spanish have been working on improving their pronunciation and knowledge of phonics. We did lots of repetition of 16 key sounds and words that contain them. Together, we agreed on actions to go alongside our phonics. Pupils enjoyed being active and this should tap into our kinaesthetic memory and act as an extra anchor to help us retain our learning. After all of this practice, pupils took part in mini competitions to see who could be the fastest to do the correct action for the sound called out by the teacher.
