

## Celebrating Black History Month

Gateways is committed to providing an environment that centres inclusion and diversity. Given that, the school wanted to take time to reflect on the rich history of black communities around the world during Black History Month.

As part of this, our EDI Sixth Form prefects have worked to create a display that highlights some important figures from black history.

The display offers insights into merely a few of the countless people of colour who have made history through their positive contributions to society. These include known civil rights leaders, politicians, athletes, fashion influencers and firefighters.

We hope this will spark thoughtful conversations about other significant figures from black history and their amazing contributions.

Mr Ralph Widdop
