

Sports Report w/c 16th October 2023

Friday 13th October
U11 Girls' Football v Fulneck
Won

In the Under 11 girls football match between Gateways and Fulneck, we had an amazing experience. Gateways displayed impressive skill and teamwork, leaving no doubt about our dominance. Our team's strategy involved rotating three different groups, which proved successful.

The first two teams secured comfortable victories with excellent teamwork, quick passes, and good communication. We executed our plays with precision, showcasing our hard work in training. While Gateways celebrated two triumphs, the third team secured a draw, demonstrating the competitiveness of the match.

The players on the third team displayed remarkable determination, adding to the excitement. The friendship on and off the field was amazing, and the support boosted our morale. Overall, these matches offer valuable learning opportunities for us to develop our football skills, teamwork, and sportsmanship.

Friday 13th October U11 Tag Rugby v Fulneck

Friday saw our development team play a game of Tag Rugby against the visiting Fulneck team. This was a game to allow free flowing passing and a fast-paced game and give both sets of players more invaluable game time.

The match was a huge success; the scoreline probably weighted towards the entirely Year 6 team from Fulneck but our boys started to show that movement of the ball, positional sense and defensive shape are beginning to become more automatic. This game was perfect as we continue to move towards the long term aims of player development and game awareness.
