

House tasks

This term we have had a change in the way the House system works.

All pupils from Upper 2 to Upper 6 have been put in mixed age house groups and given a task to work together to complete to earn house points. The groups have been working together all term to produce Christmas music videos, board games, Christmas stories for reception age pupils and even inventing new sports!

We have seen some great teamwork among all the houses and some really impressive final creations. The tasks are being judged this week and the results will be announced in the first House Assembly after the Christmas break and I will share the winners with you all in the first newsletter of next term.

Mr Daniel Reeves
