

Lower 3 textiles

Lower 3 have worked so hard this term in their Textiles lessons. They have learnt to thread up and 'drive' the sewing machine, to measure, cut and pin and to iron. Although I cannot promise they are ready to iron their own school uniforms just yet! They have focused on working independently to make their drawstring bags but there have been some lovely examples of peer support when one pupil has mastered a skill and then they willingly help one of their classmates to master that skill too. Super work Lower 3!
