

### Marvellous maths

A big welcome back to all the Reception children!

Our learning in maths this week has focused on time. The children have had lots of opportunities for problem solving during our daily lessons. They have measured units of time with various equipment; sand timers, digital stopwatches and analogue clocks. The children have learnt vocabulary including seconds, minutes and hours.

We have completed a range of mini challenges to see what they can accomplish in one minute including; organising their belongings on arrival at school, star jumps, how many times they can write their name on a whiteboard and how many marbles they can put in a container using tweezers!

It has been a great first week back in school.
