

## Upper 1 imagine life in Pompeii

The children in Upper 1 have been reading the story *Escape from Pompeii* in their English lessons. They have also read a non-fiction text all about life in the ancient city of Pompeii and have learned about the terrible eruption of Mount Vesuvius that buried the city. This week we tried to imagine what it would have been like to live there at the time of the eruption. We wrote sentences in the first person, imagining that we were inhabitants of the city, and described our thoughts and feelings when the volcano started to erupt. After finishing our writing, we created the city out of lego! We tried to remember the buildings and the places we had read about and recreated them!
