

Marvellous mapping

In our humanities lessons Lower 1 have been finding out more about maps. We have been looking at all the different types of maps such as globes, treasure maps, local area maps, road maps and many more! The children have enjoyed looking at maps of our local area and even created our own maps of Harewood adding the local features, including: Harewood Arms, Harewood Doctors Surgery and of course Gateways School! We have also been creating our own maps of school using a key to highlight the buildings, grass, paths and playgrounds we have. Look at the photos above to see our brilliant work.

What a great start to our new topic, well done Lower 1!

Miss Beth Adamson and Miss Charlotte James
