

Lower 2's potato design challenge

In Lower 2, we took part in a team building challenge during PSHE lessons. The challenge was for pupils to design and make their very own potato person, giving them unique qualities, just like we have!

The children worked fabulously as teams and used their teamwork skills to share out the different jobs. We learnt the valuable skills of both teamwork and leadership and also that everyone is unique, which is what makes us special!

Pictured above are the winning potatoes from each class - well done everyone!
