

Lower 4 in Liverpool

Last week, Lower 4 visited Liverpool for their much anticipated cultural residential. Liverpool is a compact city which offers one of the largest collections of museums and galleries outside London. The city is a designated UNESCO World Heritage Site and, of course, the birthplace of The Beatles!

During our three-day visit, we walked just short of 50,000 steps! We visited the Liver Building and viewed the city from the top, took an open top bus tour visiting the famous sights from The Beatles songs and saw the homes they grew up in. We also had a workshop at Western Approaches an underground WWII war bunker, went to the cinema, played ten-pin bowling and enjoyed a meal out at The Botanist. Probably the highlight of the trip was a tour of Anfield, home of Liverpool Football Club.

Thank you to Mrs Harrison, Mr Widdop and Mrs Boyle for their support on the trip, I know Lower 4 really enjoyed spending time with them.
