## The Gatehouse and Littlegates

GATEWAYS  
SCHOOL

### Science Week

We have had an sensational time in the Gatehouse Nursery this week. Our children have been watching and carrying out a range of scientific experiments including watching a volcano erupt and a rainbow appear from Skittles.

We have been blowing bubbles, creating bubble paintings, making and exploring oobleck, observing kidney beans growing from a seed and mixing primary coloured paint to create secondary colours.

The children have also enjoyed dressing up for Comic Relief and eating some cheeky little treats.

Have a lovely weekend.

Mrs Santosh Roth
