Girls Football v Mount St Marys

The Under 13 girls faced Mount St Mary's in a football match. From the initial whistle to the final moments, the girls displayed an incredible passion for the game and a strong sense of camaraderie.

Throughout the match, both teams showcased improving skill and resilience. Despite confronting formidable opponents, the girls never faltered, demonstrating their unwavering fighting spirit and tenacity on the field.

While the B team suffered a 3-1 loss, the score did not reflect their outstanding performance. Summer shone in defence, skilfully breaking down the opposition and Ruby relentlessly pushed forward, creating numerous goal scoring opportunities. The player of the match was Ruby.

The A team secured a resounding 6-0 victory, courtesy of goals from Sophia, Georgia, and an impressive four from Elise, who was rightfully awarded player of the match. Honor's stellar defensive play and Celia's dynamic runs along the sidelines further contributed to the team's success.

Mrs Hannah Nichols

Performance cricket club

Performance cricket club runs every Thursday lunch time. The sessions have a focus on skill development, predominantly batting and bowling. This week we looked at batting, particularly stance, remaining balanced and set up. We moved onto the check drive looking to hit the ball along the floor back down the ground. The group of keen cricketers have developed significantly in 2 weeks, I'm hoping the weather continues to improve so they are able to put these skills into practice outdoors.

Mr Tom Davidson

Girls rounders

The girls started their rounders lesson outside on Thursday. The focus of the lesson was to hit as many balls as possible, improving consistency with repetition. Miss Preston and I had to have eyes everywhere because the balls were travelling further and with more power after the first 10 minutes. Unfortunately, the weather forced us indoors, so a slight tweak to the equipment, the girls continued with their hitting practice.

We finished with a game, everyone had one hit and had to try and score under pressure from the fielders. Again, like last week, there was a very competitive atmosphere. Next week we will learn specific rounders rules to various scenarios as they happen.

Mrs Laura Braithwaite

Boys cricket

After last week's skill session in freezing conditions, we decided to move onto game play and make the most of the good weather. The group was divided up into 6 smaller subgroups, who then played a game of cricket in those groups. The small numbers allowed for plenty of opportunity at batting, bowling and fielding and allowed both myself and Mr Holmes to pull out individuals for 1 to 1 coaching. It also allowed plenty of self-discovery and competition with many groups creating their own scoring systems.
