SCHOOL

### Fairy tales

During this half of the term, our literacy focus has been the enchanting world of fairy tales. We delved into the classic tale of Jack and the Beanstalk, immersing ourselves in its magic. The children not only enjoyed reading the story but also had hands-on experiences, such as planting their own bean plants. We encouraged creativity by exploring various ways to create alternative endings to this traditional tale.

In the upcoming weeks, the children will have the opportunity to let their imaginations soar even higher. They will be drawing what they imagine they would find at the top of their beanstalk and crafting their own story endings through a little recount. The children have explored their creativity and storytelling skills and become authors of their own fairy tale adventures.
