U13 Girls Football v GSAL

On a sunny Thursday afternoon, the girls headed over to GSAL to participate in a 9-side game. Once again, they showcased great determination and battled for every ball. The A team faced off against some very experienced GSAL players, quickly learning not to dive into tackles and instead forcing GSAL to play the ball backwards. The entire team displayed a competitive spirit and remained strong on the ball. The player of the match for the A team was Celia, recognised for her amazing attacking play and excellent fitness, covering a significant amount of ground.

The B team faced a tough challenge from the start, with GSAL scoring an early goal. Despite this setback, Gateways continued to fight hard and improved at linking passes together. The girls quickly grasped the demands of the game and mounted a strong comeback, never giving up. Elsie proved to be a great team captain, directing her teammates and offering support. The player of the match award went to Summer, who displayed amazing defensive skills throughout the game.

Mrs Hannah Nichol

Outdoor Education

As we transition from the winter months to warmer weather this term pupils will have the opportunity to participate in a variety of outdoor activities, including mountain biking, canoeing, kayaking, and raft building. These activities not only promote physical fitness and coordination but also foster teamwork, communication, and problem-solving skills. Pupils will have the chance to work together to navigate the waters, build rafts using limited resources, and overcome challenges as a team.

Outdoor education is a challenging component at Gateways School, as it allows pupils to step out of their comfort zones, develop resilience, and gain a deeper appreciation for the environment.
