

Lower 5 recreate Macbeth

To enhance Lower 5's understanding of Macbeth, we used several of the pre-exam sessions to recreate key scenes in order to allow a better level of empathy with the characters. The witches meeting with Macbeth was performed in the PAC with full lighting and effects - as well as a human cauldron being summoned on and off stage!

Further important scenes were enacted outside on the field. Banquo's ghost was particularly scary as it shambled its way across several of the picnic tables. Lower 5 certainly rose to the challenge and utilised their various acting spaces very well.
