

High School & Sixth Form

Enrichment Week - Tuesday

On Tuesday the pupils remaining in school had a choice of three very different activities.

A group of 58 pupils chose to go to Rother Valley to take part in activities on water. This was a great test of resilience and stamina. Half of the day was spent on the huge inflatable on the lake with the biggest challenge being getting back on the inflatable each time you fell off. The other half of the day was spent wakeboarding. This called for courage as the wakeboards move at speed and, again, you tend to fall off!

The pupils remaining in school could choose between a day gaining an insight into British politics or continuing to work towards their Bronze Award for Crest.

The CREST award introduces pupils to project work, empowering them to work like real scientists, technologists, engineers or mathematicians. Pupils were working on a wide array of projects ranging from exploring how to make the perfect cup of tea to designing roller coasters.

High School & Sixth Form

The third group had an inspirational and fun day doing activities which included: an introduction to politics, a “speed-dating” activity, an Escape Room and debates on manifestos and topics such as “Should we give 16-year-olds the vote?”

Mrs Susan Wilson

Debating in the politics session

Popping balloons to get information about the manifestos

Winners of the Escape Room

Resilience workshop
