

## Culture day – Talavera tiles

For culture day in art we had pupils creating 3D card relief Mexican tiles, also known as Talavera tiles. These tiles are hand crafted and often painted in bright, vivid colours with representative images such as local animals, plants and mythology. They will often feature symmetrical and repetitive patterns.

Pupils had 80 minutes to design, cut out and paint their tiles using acrylic paint and posca pens whilst listening to some traditional Mexican music. The atmosphere was brilliant and we love the outcomes! Well done to everyone who took part.
