

Extra-curricular netball

With all the extra-curricular clubs and activities starting over the last week, it has been a great pleasure to join Mrs Braithwaite in helping out with the High School netball.

Wednesday was my first session with the girls and I was very impressed with their display of skill, enthusiasm, and energy. It was particularly good to see how much the girls supported and uplifted one another, regardless of ability levels.

I look forward to continuing to work with the girls on their netball skills and watch them progress in this fantastic sport.
