

# High School & Sixth Form

## Surface Pro launch

It has been a busy start to the year for IT Support as pupils in Upper 3, Lower 4, Lower 5 and Lower 6 were issued with Surface Pro devices. This represents Gateways next major step into one-2-one devices for pupils.

The year groups were chosen as they are at the start of a Key Stage or have at least 2 years left in a Key Stage. Ruby in Upper 3 was the first to collect her device during the summer holidays. The implementation is going well, with just a few more operational and software changes to be made.

Parents will receive further information via e-mail requesting the completion of a series of user agreements.
